Traffic Islands

Temporary Islands

Islands available ex-stock.

Satellite Island
To be used in narrow roads with high traffic volume.

Refuge Island
To be used in wide roads with high traffic volume.

The Marshalls traffic islands comply with the Traffic Advisory Leaflets TAL 7/95, 7/93 and 11/94 as well as with the Highways Act 1980, the Traffic Calming Act 1992 and the Highways (Traffic Calming) Regulations 1993. They are also compliant with Local Transport Note LTN 01/07 and 01/08.

They come in two profiles: Satellite and Refuge. Both types can be either permanent (fixed in the ground) or demountable (can be disassembled and relocated). All traffic islands are pre-formed in factory controlled conditions, ensuring design accuracy and specification validity. Furthermore, bespoke traffic islands and delineations for cyclists are available for new upcoming cycle areas. Traffic installation kit included with instructions.

Refuge Islands
To be used in wide roads with high traffic volume

Natural products are manufactured from aggregates sourced locally to the works and contain no pigmentation, therefore colour variation between products from different works is possible.
