

Paving & Walling Notes

Common to all Marshalls Natural Stone:

- Marshalls endeavour to ensure that all natural stone products are covered by the Fairstone Guarantee. If the Fairstone Logo is visible on a product page be assured that this product is processed and supplied only by proven ethical sources (see page 5 for more information)
- All Marshalls Sandstone paving is covered by the Marshalls Stone Standard quality mark of assurance. Where the Marshalls Stone Standard logo is visible on a sandstone page, be assured that this product not only meets but exceeds the base technical levels outlined in the British Standard
- The natural origin of stone means variation in colour, texture and natural markings is inevitable. Marshalls strive through expert hand selection to ensure the integrity of each natural stone range, however as in all natural products some variation may occur
- Natural Stone products come with specific installation guidelines. Please contact our Technical Advisory Team on 0370411 2233 or visit our website www.marshalls.co.uk prior to installation
- Please note granite and marble is not suitable for use with WeatherPoint

p22 SAWN VERSURO

- A lightly textured natural stone product with good slip resistance
- Remember if used indoors this paving should be sealed with a proprietary water based acrylic sealant
- When using Jumbo and King Size, due to the weight of the units mechanically aided lifting is essential
- Please note Jumbo and King Size can only be delivered direct to site
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p24 FLAMED NARIAS

- A lightly flamed natural stone product
- This paving can be purchased in less than full packs through Marshalls Order Select process
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p26 CASARTA SLATE

- A natural slate paving product
- Natural slate inevitably shows variation in colour, so viewing the actual samples is always recommended
- Also dark slate sometimes surface blemishes occur during installation, these will weather in over time,
- If used indoors an appropriate water-based sealant is recommended
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p28 LAZARO MARBLE

- A marble product which should be installed on full mortar bed, and jointed with a proprietary waterproof grout
- For perfect installation of this exceptional paving Marshalls recommend specific primers and bonding agent. Your Register Installer should refer to his Pocket Installation Guide or call our Technical Advisory Service on 0370 411 2233
- We recommend the use of slurry primer, or similar flexible bonding agent to increase adhesion, this should be introduced to the back of the flag prior to installing onto the mortar bed
- Ensure cutting is carried out using a power saw with the appropriate quality diamond blade
- Marshalls WeatherPoint is not suitable for use with this product

p29 NATURAL SLATE

- A natural slate paving product
- Please note natural products will always vary in colour although we aim to show the best representation possible, but colours are best judged by viewing actual samples
- Also dark slate sometimes surface blemishes occur during installation, these will weather in over time,
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p30 GRANITE ECLIPSE

- A natural granite paving product
- Please be aware, natural slate inevitably shows variation in colour, colours are best judged by viewing the actual samples
- As Granite Eclipse is a natural material, varying degrees of quartz veining may be apparent in some pieces
- Make sure, if used indoors, paving is sealed with a proprietary water-based acrylic sealant
- Not suitable for use with Marshalls WeatherPoint jointing compound, instead use waterproof external grout

p36, 38, 40, 58 SYMPHONY VITRIFIED

- Vitrified paving is a high performance, manufactured paving product
- For perfect results these products require appropriate cutting tools and correct installation techniques. Consult a Marshalls Register installer or contact our Technical Advisory Service on 0370 411 2233

p42 ARGENT

- An attractive, hardwearing concrete paving product with granite aggregates
- For a contemporary look choose Argent Smooth, for greater slip skid properties try Argent Textured
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p45 MARSHALLS STEPS

- Marshalls has a broad range of high performance natural stone steps, ranging from sandstone to marble and granite
- They can be used the match Marshalls natural stone paving products or to complement concrete paving products

p50 SCOUTMOOR

- A natural stone paving product
- This product is supplied 'direct to site' only
- It is recommended that you contact Marshalls Technical Advisory Service for best installation advice when laying this paving
- A mortar joint or Instarmac FloPoint should be used with this product

p52 RIVEN HARENA

- A natural stone paving product
- This paving is carefully calibrated to a consistent thickness to ensure speed and precision of installation
- Remember Harena Circles are available and stone is hand selected to ensure compatibility across your patio
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p54 ANTIQUE ALVERNO

- A natural stone paving product
- This paving is carefully calibrated to a consistent thickness to ensure speed and precision of installation
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p56 LIMESTONE ALURI

- A natural stone paving product
- Please note that Charcoal limestone can lighten depending on weather conditions in your area
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p58 ARRENTO

- Vitrified paving is a high performance, manufactured paving product
- For perfect results Symphony Vitrified products require appropriate cutting tools and correct installation techniques. Consult a Marshalls Register installer or contact our Technical Advisory Service on 0370 411 2233

p60 PAVESYS HERITAGE

- Pavesys is a unique patented concrete paving system,
- The system is designed to create the correct width, automatic joints when the paving is laid. If you would like to know more about Pavesys or if using it for the first time, it is recommended that installation instructions are obtained from the Technical Advisory Service (Tel: 0370 411 2233)
- Remember Pavesys Heritage comes with the correct amount of Weather Point jointing compound

p62 COACH HOUSE

- An accurate riven stone replica, concrete paving product
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p63 WOODSTONE DECKING

- An accurate wood replica, concrete paving product
- Wood stone are faced on both edges for a realistic look

p63 WOODSTONE SLEEPERS

- A wood replica, concrete paving product
- Wood stone are faced on both edges for a realistic look

p64 HERITAGE

- An accurate riven stone replica, concrete paving product
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p68 FIREDSTONE

- An accurate riven stone replica, concrete paving product
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p70 SAXON

- Saxon is a textured concrete paving product, made with local aggregates giving excellent slip skid qualities
- Please note Saxon is made in a number of factories across the UK and uses local aggregates. So it is not recommended to lay product from a number of factories together
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p72 PERFECTA

- A concrete paving product with Yorkstone aggregates, which are ground to give the appearance of terrazzo
- Yorkstone aggregates, give this product excellent non-slip properties, even when wet
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p73 REGENT

- A standard riven stone replica, concrete paving product
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p74 INDIAN SANDSTONE

- A budget natural stone product
- This paving is comparative with most other commercially available stone but has not met the rigorous grading standards set for all our premium grade Harena sandstone
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p75 LEYBURN

- A budget concrete paving product
- Although performance is good, sizes and colours will be limited
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p76 TEXTURED UTILITY

- A budget concrete paving product with good non-slip properties
- Although performance is good, sizes and colours will be limited, and finish may be varied
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p77 UTILITY PAVING

- A budget concrete paving product with a shot blasted or riven finish with good non-slip properties
- Although performance is good, sizes and colours will be limited, and finish may be varied
- This paving is ideal for jointing with Marshalls all weather, 'WeatherPoint Jointing Compound'

p78 WEATHERPOINT 365

- A non hazardous, weed and frost resistant jointing compound ideal for 8-15mm joints
- Speeds up installation time
- WeatherPoint can be applied in wet or dry weather conditions, but water must be always be used
- No surface staining if applied correctly
- WeatherPoint is not suitable for use on granite paving or marble

Common to all Marshalls Walling Products:

- Marshalls recommends the use of Coping and Caps with all Walling Products. Copings and Caps protect walls against the staining effect of rain for a period of time

p90 STONEFACE DRYSTACK VENEER

- A natural stone veneer for transforming existing or purpose built walls
- Panels are in a Z cut format to hide joints, for a seamless finish
- This product is supplied with the correct amount of adhesive and primer

p91 STONEFACE SAWN VENEER

- A natural stone veneer for transforming existing or purpose built walls
- This product is supplied with the correct amount of adhesive and primer

p92 ARGENT Walling

- A textured concrete walling product with sparkling aggregates in the surface
- Corner Quoin Ends can be ordered via Marshalls Order Select
- Please note this walling is only faced on one side
- Use Marshalls 'M-Fix Walling Adhesive' when using this product

p93 WILDWOOD Walling

- An attractive concrete walling product with a premium lightly polished finish
- Corner Quoin Ends can be ordered via Marshalls Order Select
- Please note this walling is only faced on one side
- Use Marshalls 'M-Fix Walling Adhesive' when using this product

p94-95 TRADITIONAL NATURAL STONE Walling

- A premium natural stone walling product, available in a number of colours and finishes
- A 10mm joint width is recommended with this product

p96 OLD MILL BRICK

- A traditional clay walling product
- A 10mm joint width is recommended with this product

p97 TEGULA Walling

- A traditional concrete walling product which complements a range of Driveset Tegula and other Marshalls landscaping products
- A 10mm joint width is recommended with this product

p98 MARSHALITE Walling

- A traditional concrete walling product which complements a range of Marshalls Paving and Driveway products
- A 10mm joint width is recommended with this product

p99 CROFT STONE

- An attractive, concrete easy-build walling system
- This walling is ideal for retaining walls up to 6 courses, but should never be used as a freestanding or dividing wall

p102-103 DECORATIVE AGGREGATES

- Decorative Aggregates are natural products
- Please note because these are naturally occurring materials, they may vary slightly in size and colour, this reflects the product character
- Recommended minimum coverage for aesthetic effect – 25mm, for weed suppression – 50mm
- Decorative Aggregates do not always provide a solid base to walk on, care should be taken

Driveway Notes

General Driveway Notes

- All Marshalls driveway products in this brochure are designed for domestic vehicles only, they are not designed for commercial vehicles
- Driveways must be installed with edge restraints for stability
- Driveways must be installed in accordance with current legislation to manage and control water run-off

Natural Stone Driveway Products

- Marshalls endeavour to ensure that all natural stone products are covered by the Fairstone Guarantee. If the Fairstone Logo is visible on a product page be assured that this product is processed and supplied only by proven ethical sources (see page 5 for more information)
- All Marshalls sandstone paving is covered by the Marshalls Stone Standard quality mark of assurance. Where the Marshalls Stone Standard logo is visible on a sandstone page, be assured that this product not only meets but exceeds the base technical levels outlined in the British Standard
- Due to the nature of this product, you may see some colour variation in natural stone products

Marshalls Concrete Driveway Products

- When laying block paving products, for an even colour blend ensure blocks are taken from a number of packs. Also taking blocks from vertical rather than horizontal layers will ensure good colour blend
- Marshalls concrete block paving is manufactured in different factories. Colour may vary slightly across these works of manufacture
- Marshalls can supply kiln dried sand, contact your local service centre for more information

For specific Installation Guides or if you are laying any Marshalls Driveway materials for the first time, please contact Marshalls Technical Advisory Team on 0370 411 2233 or visit our website www.marshalls.co.uk for installation advice.

p127 CROPPED GRANITE SETTS

- Natural granite cubes, ideal for pathways, driveway entrance strips or borders
- This product can be used for driveways, but Marshalls Installation Guidelines must be carefully followed
- Please note Marshalls WeatherPoint is not suitable for use with this product

p128 DRIVESSETT ARGENT

- A textured, concrete driveway product with attractive exposed granite aggregates
- This product co-ordinates perfectly with Drivesett Argent Edgings, see p170, Argent Paving p42 and Argent Walling p92

p130 DRIVESSETT SAVANNA

- A smooth concrete driveway product

p132 DRIVELINE METRO

- A textured, concrete driveway product with attractive exposed granite aggregates
- Driveline Metro can be a single colour driveway, or you can purchase a number of different colour packs to create a unique effect

p146 GRASSGUARD

- A permeable concrete grid, driveway system
- Ideal for occasional car parking spaces, but due to its nature it is not as even as other concrete block paving products, so extra care must be taken when walking over areas in high heels
- Manages rainfall run off in a sustainable way and does not require planning permission when installed correctly
- The Grassguard grid allows grass to grow through the blocks, providing a green option for parking

p147 NEW DRIVEGRID

- A composite permeable grid system, which is filled with gravel to create a car parking area or pathway
- When using this product it is essential that the area is framed with an edge restraint for stability
- For best aesthetic looks Marshalls recommends using a driveway entrance strip
- All components available as a system, delivered direct to site

p164 DRIVESSETT NATRALE

- A riven textured, concrete driveway product available in a number of sizes

p165 DRIVELINE ELISE

- A distinctive, concrete driveway products with a hammered granite texture

p166 STANDARD BLOCK PAVING

- A standard block paving product, made in different factories in England, Scotland and Wales therefore variations in colour and tone may occur

p118, 120, 122 DRIVESYS RIVEN, SPLIT & FLAMED STONE

- A premium, concrete driveway product which has a patented base design to automatically create the right size joint
- Drivesys is available in a number of sizes, colours and finishes
- Sufficient and appropriate jointing compound is delivered with every order
- Drivesys blocks come with a shiny protective transportation seal which quickly wears off to reveal the slightly lighter true colour
- Drivesys Jointing Compound is guaranteed for a period of 12 months or 2 years if the customer has purchased a Marshalls Register Hard Landscaping Guarantee
- It is essential that the 'Drivesys Installation Guide' is followed, to order a copy call the Marshalls Technical Advisory Service
- It is recommended that Drivesys is installed by a Marshalls Register member
- For coordinating Drivesys Roundtop Edging see p170
- Marshalls recommends that Drivesys Jointing Compound is always used with this product for structural stability

p124 MAGNASETT

- A blended mix of premium stone
- Please note due to the nature of this product significant variation between stones can occur
- The use of the correct installation method is critical for this product, please contact Marshalls Technical Advisory Service for more information

p126 NATURAL STONE DRIVEWAY SETTS

- A premium stone driveway product
- Please note due to the nature of this product significant variation between stones can occur
- For a co-ordinated natural stone look try Natural Stone Walling, p88, p94, Stone Steps p44
- The use of the correct installation method is critical for this product, please contact Marshalls Technical Advisory Service for more information
- For paths and edging smaller quantities can be ordered via the Order Select service, see p178

p127 NEW SAWN GRANITE SETTS

- A contemporary, linear natural stone driveway product
- Please note due to the nature of this product significant variation between stones can occur
- The use of the correct installation method is critical for this product, please contact Marshalls Technical Advisory Service for more information
- Please note Marshalls WeatherPoint is not suitable for use with this product

p134 DRIVELINE 50

- A facemix driveway product with a smooth surface

Common to all Priora Driveways:

- The Priora design drains water away safely in heavy rainfall without burdening the community drainage system
- If installed with the correct sub-base this permeable paving solution can be used in a front garden without obtaining planning permission
- Specific installation guidance must be followed
- The Priora System should not be attempted by the DIY enthusiast or untrained installer. It requires the careful calculation of a soil permeability test and appropriate use of specially graded sub-base aggregates.** Should an installer wish to undertake training for the installation of this product please call the Marshalls Helpline on 0345 820 5000 for further information.

Visit the Marshalls website to find your nearest Marshalls Register Installers trained to install Priora Systems, or call 0345 820 5000

p140 DRIVESSETT ARGENT PRIORA

- An attractive, yet sustainable concrete driveway product with attractive exposed granite aggregates
- This product co-ordinates perfectly with Drivesett Argent Edgings, see p170, Argent Paving p42 and Argent Walling p92

p142 DRIVESSETT TEGULA PRIORA

- A sustainable concrete driveway product, with a traditional look

p144 DRIVELINE PRIORA

- A sustainable concrete driveway product, available in a broad variety of colours

p152 NATURAL STONE DRIVEWAY SETTS

- A premium stone driveway product
- Please note due to the nature of this product significant variation between stones can occur
- For a co-ordinated natural stone look try Natural Stone Walling, p88, p94, Stone Steps p44
- The use of the correct installation method is critical for this product, please contact Marshalls Technical Advisory Service on 0370 411 2233 for more information
- For paths and edging smaller quantities can be ordered via the Order Select service, see p178

p154, 156 DRIVESYS ORIGINAL COBBLE & CLASSIC PAVER

- A premium, concrete driveway product which has a patented base design to automatically create the right size joint
- Drivesys is available in a number of sizes, colours and finishes
- Sufficient and appropriate jointing compound is delivered with every order
- Drivesys blocks come with a shiny protective transportation seal which quickly wears off to reveal the slightly lighter true colour
- Drivesys Jointing Compound is guaranteed for a period of 12 months or 2 years if the customer has purchased a Marshalls Register Hard Landscaping Guarantee
- It is essential that the 'Drivesys Installation Guide' is followed, to order a copy call the Marshalls Technical Advisory Service,
- It is recommended that Drivesys is installed by a Marshalls Register Member
- For coordinating Drivesys Roundtop Edging see p170
- Marshalls recommends that Drivesys Jointing Compound is always used with this product for structural stability

p160 DRIVESSETT TEGULA

- A traditional look, concrete driveway product, perhaps Britain's preferred choice of driveway for the past decade and still a perfect option
- Why not try co-ordinating walling and edging see pages 97 & 169

p162 DRIVESSETT DUO

- A unique traditional look, concrete driveway product,
- Each block is reversible, which a defined colour blend on each side, allowing individual design mixtures.

p163 DRIVESSETT DECO

- A smaller traditional look, concrete driveway product, ideal for driveways
- This product can also be used for pathways, driveway entrance strips or borders

p167 NEW DRIVELINE DRAIN

- Driveline Drain concrete linear drainage controls normal water run off from driveways and paving with no requirement for planning permission
- Available from Q2 2017
- Accessories are also available for a complete installation,
- Specific installation guidance must be followed. Consult a Marshalls Register Installer. Or for further guidance contact Marshalls Technical Advisory Service

p168-169 KEYKERB, TEGULA & DRIVESSETT KERB

- Large or small kerb is the foundation of any successful driveway installation
- Specific installation guidance must be followed. Consult a Marshalls Register Installer. Or for further guidance contact Marshalls Technical Advisory Service

p170 DRIVEWAY EDGINGS

- Perfect edge restraints for driveways, either smooth, round top in Basalt colour, ideal for the Drivesys range or granite looking textured units in Grey or Buff for any other Marshalls Driveway
- Specific installation guidance must be followed. Consult a Marshalls Register Installer. Or for further guidance contact Marshalls Technical Advisory Service
